Speaking Assessment

Band Descriptors	Band	Comments
Fluency and coherence	6	Can speak at length, however, there is a lack of coherence due to less or no connectives used. Ending of the sentences is not clear.
Lexical resource	6	Focus on using appropriate vocabulary (topic related). Meaning is properly conveyed but sentences are not well structured.
Grammatical range and accuracy	5	Grammar is poor. Need to work on tenses and usage of more complex structures. Complex sentences can be formed simply by using words like although, eventhough, however, moreover, futhermore, while, that, being, because, etc.
Pronunciation	6	Mispronunciation of words reduces clarity at times, however the sentences are still understood. Concentrate on intonation and tone modulation for correct pronunciation.
